

PowerTalk Pro

PowerSystems **Speech** Software

Thank **you** for purchasing **PowerTalk Pro!**

This new and updated version of PowerTalk Pro is sure to be a useful tool for the disabled. And with more features and voice packs available at the PowerSystems Website, you can use PowerTalk Pro to its limits and more!

1.1 **What is PowerTalk Pro?**

PowerTalk Pro is setting the standard for PowerSystems System Software with its new Speech program. PowerTalk Pro is a speech program that is for the disabled. It offers selectable sentences and words for the voice you chose to speak aloud. With more downloadable Voice Packs from the PowerSystems website (www.geekme.yolasite.com), you can have more voice options, and more speakable text options.

1.2 **How is PowerTalk Pro going to help me?**

PowerTalk Pro is aimed at the disabled, so if you are disabled, PowerTalk Pro will be a great program for you. PowerTalk Pro, as explained above, is a speech program for PowerSystems System Software. PowerTalk Pro will speak and selected text outloud. If you cannot talk because of your disability, then PowerTalk Pro will be here for you.

1.3 **How do I run PowerTalk Pro?**

If you have PowerTalk Pro on the new Power X Operating system, then you can launch PowerTalk Pro from the Main Screen at Power X (open the User Manual for Power X). If you have purchased PowerTalk Pro on a CD-RW, then PowerTalk Pro will automatically launch for you.
